Guarantee

To validate this guarantee, the purchaser must have this puppy examined by a licensed veterinarian within 48 hours of contract (business days.) If the veterinarian certifies in writing that the puppy has a serious incurable health problem or defect, the puppy and the written veterinarian statement must be returned to me within the next 48 hours after the veterinarian visit. Veterinarian bills and all other debts regarding this puppy are the responsibility of the purchaser. Should the purchaser neglect to take the puppy to the veterinarian for this examination, the purchaser accepts immediate and full responsibility for its health. Please remember to check with your veterinarian concerning Heartworms, Lyme disease, and a flea/tick program. The puppy's immunizations are up to date at this time.

We offer a 2 year guarantee on our puppies for congenital issues. In the event that a puppy shows signs of a congenital issue, and is diagnosed as such before the age of 2, by a licensed veterinarian, we will refund the medical/vet expenses up to the cost of the puppy or replace the puppy with a like or similar breeding as soon as is feasible. We retain the right to get 2nd opinions from our vet and to analyze all test results. We will need written diagnoses, medical records, with microchip documentation, and x-rays before a decision is made. We do the utmost to determine size, color, hair type, shedding potential, and allergenicity of your puppy when full grown. We cannot, however, guarantee these characteristics.
